

Accessible Voting

Remote Accessible Vote-by-Mail Ballot (RAVBM)

You may request a remote accessible vote-by-mail ballot. The RAVBM system allows voters with disabilities to download and mark your ballot privately and independently using your own assistive technology, print your marked ballot, sign your return envelope, and return it to the Elections Office to be counted. See the next page for more information.

At the voting location

In some voting locations, temporary thresholds, ramps, signage, cones, and door props are used to improve access to the facility.

Curbside voting

If the voting location is not accessible, you may vote on a paper or an electronic ballot from a nearby accessible location, including a car. A poll worker will qualify you to vote and will return the voted ballot to the voting location.

To request curbside voting assistance, you can:

- call in advance to coordinate a time and place
- have an assistant make the request inside the voting location

Accessible voting system

Each polling place in the county has a tablet with:

- an audio option that reads the ballot to you
- a universal plug for personal assistive device
- large print (24 points)
- a choice of English or Spanish
