

Gabriella Noack  
Santa Cruz City Council District 6

I am running for Santa Cruz City Council District 6 because I believe council members should serve the interests of locals and working families.

I believe that women belong in politics, immigrants make America beautiful, and access to affordable housing is a basic human right.

At Cabrillo College I volunteered as a Peer-to-Peer tutor and teaching assistant. Later I taught tech classes in a local jail, and now I am part of a team developing free technology education classes for previously incarcerated adults at a local non-profit called Barrios Unidos.

As someone who has worked with fellow Santa Cruzans from all walks of life, I will be a collaborative voice that will work hard for our West Side Santa Cruz.

I pledge to uplift our community by making housing affordable for locals, improving public transportation accessibility, and most importantly, respectfully listening to the needs of my constituents.

It takes the passion and strength of a young woman like myself to stand up for the interests of our westside neighborhood. I will represent the voice of Santa Cruz; a voice that loves diversity, equal opportunity and community joy.
