

I love our Felton. My wife and I have lived in town for a few decades now. Felton has changed a little bit here and there over the years, but right now we as a community have a common mission to have an effective emergency service organization in our town. The department is in a time of change, it needs community support and level-headed leadership. We as a community need to be active in our fire district, I hope I can help rally that support again.

As a past volunteer firefighter in Felton and Boulder Creek I bring that important culture and experience. I'm a local business owner for well over 25 years. I've volunteered for many local organizations. My experience can benefit Felton Fire. I can share my hands-on knowledge of cash flow, budgets, and strong leadership. I feel I can be of benefit to our town and Fire District.

If elected my goal would be to build back a great team and leaders with a solid plan for the long term. Thank you for your consideration.

Doug Conrad
