

Hello SLV,

I'm a Boulder Creek Firefighter running for a seat so I can further serve the Community and the Men and Women of our great Department. We fought the CZU Fire shoulder to shoulder; they are my second family. If elected to a District Seat I could ensure our Department can receive the Training, Equipment, and guidance that a board member should provide. I have an excellent sense of the Department's needs and wants to better serve the public. I also have an excellent relationship with the Chief and his staff so our communication and calibration can be done in a respectful manner. When I lost my home in the CZU Fire, I kept fighting the fire because right then and there, I was given so much Love and Support from the Line, the Command Staff and the great people of SLV. In closing, I believe my experience in Finance, Budgeting and Project Management along with the training and experience as a BCFD Firefighter makes me a good choice for your vote; so with hat in hand... I humbly ask for your vote. Many thanks and stay Strong SLV.

Warmest Regards,

Vince Cortinas Sr.
