

Statement of Eduardo Montesino, candidate for Watsonville City Council District 1

Occupation: Incumbent Age: 49

My experience as Mayor, City Council Member, and leader in our community has given me the opportunity to represent Watsonville at the County level and State level to bring much needed resources.

My beautiful wife and I have three wonderful children in our community. This gives me a strong commitment to Watsonville's future. Like many of you, my children attend local schools and participate in local sports.

My career as a public servant has given me unique perspective on the needs for our community, and its challenges. We need experience during these hard times. We need to work together.

As a Mayor and Councilmember, I was able get government working for you. Ramsay Park is finally being rebuild, streets and roads repaved, crosswalks painted with beacon lights and an overhaul of our City Charter which will be voted on in November.

I am committed to working hard to attract jobs for our city, improve local schools and roads and keep our neighborhoods safe. I am in your corner fighting for our Watsonville to get its fair share of resources from the County.

I promise to work hard for you on the Watsonville City Council. Together we can make a difference. I respectfully ask for your vote.
