

Erica Turzak

Candidate Statement – SVUSD School Board

When the answer is simple, the questions and focal points become clear. Our schools are the cornerstone of our community. All students matter. Our teachers change lives for the better. However, as a parent of two school-aged children, I am concerned about the recent loss of programming, services and facilities in our schools.

My name is Erica. I am not a politician; I am a business consultant, a mom, and above all, a parent seeking to improve outcomes for our kids. I value fiscal responsibility, transparency, and equal access to decision making. We must work to enhance communication and build stronger partnerships within the district as well as with the community to get our schools back on track.

I believe that cooperation between teachers, parents and administrators is critical in creating the best possible learning environment for our children. With a professional background in business strategy, communications and finance, I have the experience necessary to bring constituent groups together in collective advocacy for our schools, make financial decisions that reflect the needs of our schools, demand common sense decision making keeping the answer at the forefront “our students”. Please visit www.EricaTurzak4SVSchools.com for more information. Thank you for your consideration.
