I am a mother to two mixed-race, elementary-aged children in the district. As an immigrant and a parent to a child with special needs, I can relate to the experiences of students who don't look or talk like others around them. I want to ensure that ALL our children have the resources they need to get a high quality education.

My background in community health operations means I understand the challenges of running a large, complex, highly regulated organization in a fiscally responsible manner. I have used my experience to ask thoughtful questions about emergency planning, provided practical advice to support hiring practices, and offered guidance on how the new wellness center at SVHS can be financially sustainable today and into the future.

As we think and plan for how education will evolve over the next 10 years, we must ensure that our school board remains representative of our increasingly diverse community. Everyone in our district deserves a voice. I would be honored to represent yours.
