

I am Alicia Jimenez, and I am running for the Pajaro Valley Unified School District Board of Trustees, Area 5, to ensure that our district remains firmly focused on its most important responsibility: the success of every student.

As a proud product of PVUSD and a retired district employee with 25 years of service, I bring knowledge of our schools, community, and the opportunities and challenges facing our students, families, teachers, and staff.

I hold a Master's degree in Public Administration and have received training in Effective School Board Governance. My education, professional experience, and years of service have prepared me to provide experienced, competent, and responsible leadership to the Board.

Effective governance requires focusing on student outcomes, establishing clear priorities, promoting accountability, and ensuring that teachers, administrators, classified employees, families, and everyone who works with our students have the support necessary to help them succeed.

I am running to bring stability, focus, and effective governance to the Board. Every student should be able to feel safe as they work to achieve their dream and leave our schools prepared to build the future they envision for themselves.

I ask for your support.
