

—CANDIDATE STATEMENT---

Mads Stockwell Realmuto

Parent / Education Advocate | mads2026.com

I am running to bring greater urgency, respectful communication, responsible budgeting, and stronger accountability to PVUSD—improving student outcomes by prioritizing the people and programs closest to students.

I grew up in La Selva Beach and attended Starlight, Valencia, Aptos Junior High, and Aptos High. Today, both of my children attend PVUSD elementary schools. I chair PVUSD's Special Education Community Advisory Committee, working with families, educators, and district leaders to strengthen transparency, collaboration, and accountability. I also serve on the Sustainable Schools Advisory Committee, helping recommend how PVUSD can realign schools amid declining enrollment and direct more resources toward students. These roles have given me a deep, districtwide understanding of what is working and where change is needed.

Professionally, I spent two decades in global public affairs, managing communications and shaping public policy focused on consumer safety. My work required translating complex issues into clear choices, evaluating alternatives, and turning competing perspectives into practical solutions.

PVUSD has dedicated educators, remarkable students, and enormous potential. Our community deserves a board that rises above conflict, treats people with respect, and exhausts every reasonable alternative before making difficult decisions—always focused on expanding opportunities for students.

I would be honored to receive your vote.
