

Peter Wilk: wilkforcapitola@gmail.com website: wilkforcapitola.com

I am deeply concerned that the Capitola city budget projections for the next 5 years are going increasingly negative. I have the knowledge and experience to address this problem immediately. As a former Capitola City Treasurer with an MBA and 35 years of career experience winning proposals, meeting schedules and managing budgets, I can get results. I have worked with the Capitola City Manager for years, and was on the hiring committee for our current Finance Director. Working together, we will find effective budget solutions.

In addition, my degree in Biological Sciences and 8+ years on the Capitola Commission on the Environment demonstrates my dedication to environmental protection. My focus was Sequel Creek. I am proud to have spearheaded the restoration of Peery park, gathering volunteer labor without tapping into Capitola's general fund.

I was Planning Commissioner for 6 years, updating and clarifying the Municipal Code in order to streamline the process and avoid confusion for the applicants.

Finally, having been on many commissions and ad hoc committees, I believe they need to have more direct control managing and implementing their projects.

Key Endorsements: City Council Member Melinda Orbach. Former Mayors Kristen Brown, Mike Termini, Sam Storey.

Fresh ideas. Tough questions. Results.
